DATE 3/11/11
HB 161

March 11th, 2011

8:00 AM, Room 152

Judiciary Committee -Senate

Hearing on HB 161

Testimony by Ed Bland of Lakeside, Montana

Are you going to vote to make me a criminal for my lawful actions which do no harm nor break any contracts? In fact, you are considering taking from me my natural medicine and by that action alone you will be doing harm to me. Who stands to become the real criminal?

My story: Serious motorcycle accident, coma, brain damage, 7 year memory loss, constant muscle tension, motor skills malfunction.

What helps: Smoking medical marijuana for temporary relief, ingesting it for longer lasting & for increased effects benefits my situation, tremendously.

The benefits: Muscle relaxing; motion and motor functions increased by 50%; speaking more clearly, memory is coming back for the first time due to change in method of application.

I now remember those 7 missing years I had lost for so long!

What now? Attempt to take away my God granted rights, and deny me my medicine?

I do not consent. Stand down immediately. Put an end to this harmful action!

Notice those orders.

In full life,

Ed *Ed Bland*
